

Eco-Flex

‘A leading care chair that meets today’s economic and environmental concerns of local authorities and the healthcare industry.’

## Total Flexible Dimensional Movement for the Perfect Fit

The Eco-Flex has been designed to have a high degree of monetary saving over a medium to long-term period by reducing the need to purchase a wide range of different dimensional chairs.

The chair has the ability to offer total flexible dimensional movement, both in height and depth, which will reduce the requirements for stocking a large number of different sized chairs.

## Suitable Environments

Home

Nursing &  
Residential Homes

Healthcare

Fabric Shown:  
Highland Terracotta & Black VP

### Height & Depth Adjustment

Designed to enable quick adjustments to seat height and seat depth for optimum adaptability to the users needs.

### Multiple Back Options

The Eco-Flex comes complete with multiple back options, allowing the user to achieve maximum support and comfort to their individual requirements.

### Tilt in Space System

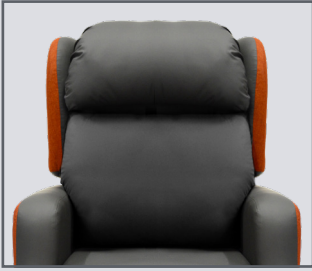

The Tilt in Space movement allows the chair to be gently reclined to a range of positions while maintaining a constant back angle.

## Tailored Pressure Care, Fitted With Ease

The design of the Eco-Flex allows alterations to the type of pressure and postural care that is required for a client and can accommodate a variety of additional pressure care products. These can be quickly installed at a later date should it become necessary, dependent on the users personal requirements.

## Additional Back Options

### 2-Tier Drop Back

A classic fibre filled back cushion provides a soft feel and maximum comfort. The 2-Tier Drop Back comes fully adjustable with zip access at the rear to offer bespoke support around the back area.

### Vertical 2-Tier Drop Back

A fibre filled back designed for a comfortable feel to aid in the reduction of pressure around the mid back and spinal area, Beneficial to users with more complex postural needs such as Scoliosis and Kyphosis.

### 3-Tier Drop Back

Each individually fibre filled cushion has zipped rear access for adjustment, providing maximum comfort & bespoke support. Beneficial to users with more complex postural needs like Scoliosis and Kyphosis.

### Foam Lateral Back

A firm foam filled Lateral Back with a soft fibre filled headrest. This will not only provide comfort, it also will help to maintain a healthy mid-line position from the hips upwards, which is key for good posture.

## Eco-Flex Key Features

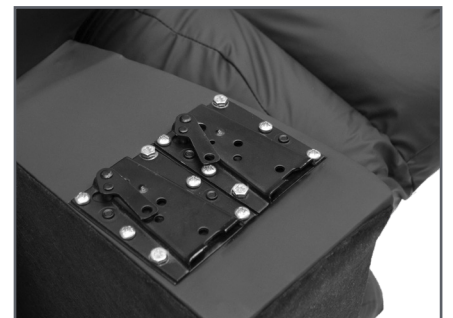

### Inbuilt Lateral Support

The Eco-Flex offers a Lateral back cushion as standard, providing strong postural support to meet the majority of non-critical users.

### Moving and Handling

Where there is a requirement for transferring users the Eco-Flex is designed with two faceted arms to allow easy access with wheeled hoists.

### Seat Depth Adjustability

Alternative seat depths are achieved by lengthening the seat box from the underneath 'turn wheels' and also by using our dual back frame brackets.

### Footboard Adjustability

The Eco-Flex offers complete footboard adjustability of up to 2" which is achieved from the underneath 'turn wheels' of the footboard.

### Seat Height Adjustability

Alternative seat heights can be achieved on the Eco-Flex with use of 1" & 2" risers that can be installed quickly and easily.

### Button Glides

The Button Glides are a standard feature on our Eco-Flex. They minimize chair movement which can be beneficial during user transfer.

## Size Matrix

Measurements Shown In Inches.

Seat Height	18	19	20	21
